Feb. 2019 - May 2019 & Oct. 2019 - Dec. 2019

I-Pulses | Blegny, Belgium

Placement & Analyst Developer (Student job)

Developed, from scratch, a Chatbot middleware Framework to guarantee user data privacy. The middleware's role was to filter what data could be sent to a cloud-based chatbot. Using IBM Watson as a cloud chatbot, Microsoft bot framework as the frontend, and a Nodejs server as a backend.

C# microservices were added to meet the client specific needs.
